What is SkillReel?

SkillReel is a short-video + social learning platform for Gen Z & Millennials — combining TikTok-style content with skill-based community building.

Target: Gen Z (16–24) & Millennials (25–35)
Platform: Mobile-first (iOS & Android)
Market: India-first, global expansion

SkillFeed

15–90s skill videos, AI-curated

Creator Studio

Analytics + monetization hub

Skill Circles

Topic-based learning groups

Live Sessions

Live workshops & Q&A rooms

Challenges

Viral skill challenge threads

Skill Badges

Achievement + milestone system

PROBLEM STATEMENT: Creators lack a platform that combines skill-based short video content with community-driven learning, measurable progress, and monetization.

Product Definition: Bridging Education & Short-Form

Skill Reel shifts the paradigm from passive entertainment to active value conduct, facilitating enterprise-to-user engagement for professional growth.

Skill Shorts

60-second instructional reels designed for high-efficiency learning, eliminating long-form lecture fatigue.

Curated Tracks

Focused mastery in Coding, UI/UX Design, Data Analytics, English Fluency, and Soft Skills.

Freemium Model

Free access to foundational content, with premium Pro tier upgrades for deep skill mastery.

The Paradigm Shift: Passive Consumption vs. Active Value

	Traditional Social	Skill Reel
Content Type	 Entertainment & Doomscrolling	 Educational & Goal-Oriented
Primary User Intent	 Distraction & Social Graph	 Value Conduct & Upskilling
Monetization Driver	 Ad-based Attention (Time on app)	 Freemium Subscription (Skill mastery)

NORTH STAR METRIC

Weekly Active Creators (WAC)

of users who publish ≥1 piece of content per week

WHY THIS METRIC?

- 1. Creators drive content supply → more content → more consumption
- 2. Creates powerful network effects and loop back to DAU growth
- 3. Directly tied to monetization, retention, and platform health
- 4. Measurable, actionable, and predictive of long-term success

DAU / MAU	> 40%	36%	38%	41%	Close

HOW SKILLREEL COMPARES AT LAUNCH

METRIC	TikTok (Y1)	Instagram (Y1)	YouTube (Y1)	Industry Avg	SkillReel Target
D7 Retention	25%	22%	20%	22%	> 30%
DAU/MAU	45%	35%	30%	35%	> 40%
Avg Session	22 min	16 min	18 min	18 min	> 18 min
K-Factor	1.5	1.2	1.1	1.2	> 1.2
D30 Retention	20%	18%	15%	18%	> 20%

D7 RETENTION COMPARISON — SkillReel vs Industry

AVG SESSION TIME (min)

Defining a Successful Launch Timeline

Phase 1: Week 1–2

(Activation Focus)

- ✓ Establish baseline Daily Watch Time.
- ✓ >30% D1 Retention.
- ✓ Minimize Second Bounce Rate.

Phase 2: Month 1

(Traction Focus)

- ✓ DAU growth momentum.
- ✓ D7 Retention > 25%.
- ✓ Strong referral K-Factor.

Phase 3: Month 2–3

(Scale & Revenue Focus)

- ✓ Pro Monetization scaling.
- ✓ Lifetime Value (LTV) modeling baseline established.

RECOMMENDATIONS & NEXT STEPS

Nail D1 Onboarding

Reduce time-to-first-post to <5 min. A/B test onboarding flows weekly. Target: 35% activation in 24hrs.

Weekly WAC Reviews

Host stakeholder sync every Monday with updated WAC, D7, and funnel conversion numbers.

Creator Partnerships

Sign 50 micro-influencers (10K–100K followers) in Tier-1 cities before launch week.

Smart Notifications

Personalize push campaigns by content type. Cap to 3/day. Monitor opt-out rates daily.

Creator Incentives

Launch 'SkillReel Creator Fund' — reward top 100 creators with cash bonuses at 1K, 10K, 100K followers.

Performance Monitoring

Set up real-time dashboards in Mixpanel/Amplitude. Alert team when any KPI drops >10% week-over-week.

Reasoning

This is a part of his reasoning: all of us analysis.

01

Target Market:

Primarily targets ages 16–35, launching as a mobile-first (iOS and Android), India-first platform with global expansion plans

02

North Star Metric:

Weekly Active Creators (WAC), defined as users who publish at least one piece of content per week to drive supply and consumption.

03

The Critical Window:

The first 5 minutes (\$T+5\$ mins) after onboarding are vital; the goal is to get a user to watch \$\ge 3\$ curated reels to achieve "User Activation" and avoid immediate churn.

04

Go-to-Market Tactics

Immediate next steps include signing 50 micro-influencers before launch week to drive targeted acquisition, and establishing a "SkillReel Creator Fund" to reward top early adopters.

05

Monetization

Operates on a Freemium model, offering free foundational content with premium "Pro" upgrades for deep skill mastery.

06

Key Launch Targets

Aiming for >40% DAU/MAU (Stickiness Ratio), >30% D7 Retention, and a 2% paid subscription or creator tip conversion rate in Month 1.

07

Habit Building

Retention is driven by milestone hooks, such as issuing progress streak badges and weekly recaps on Day 7, and teasing Pro monetization eligibility by Day 30.

08

Summarize Points

Restate agreements clearly, preventing confusion and reinforcing shared commitments.

Ready for Launch Execution

Data Infrastructure

All platform events successfully mapped to the AARRR funnel.

Dashboard Finalization

Stakeholder wireframe ready for live Figma prototyping.

Launch Readiness

Continuous monitoring protocols established for the North Star metric.
